LOSS OF THE CENTRAL AMERICA.

The New York papers of Saturday are full of vanuah, or Norfolk, were necessarily more, or less imperfect. We condense from these papers the following account of the fearful shipwreck.

The Central America (formerly the George Law) a three-masted, side-wheel steamer of some 1500 tons, built in 1852, left Havana, on the morning of the 8th instant, for New York, with about \$1,600,000 in gold, on freight, and an estimated amount of \$300,000 more in private hands, and 525 passengers. The following statement from one of her passengers, Mr. H. H. Childs, who, after swimming six hours in the ocean, was picked up by a vessel and taken to Savannab, tells the sad story of ner loss:

Savannab, tells the sad story of ner loss:

I left Havana on the steamship Central America for New York on September 8th. The weather was delightful and the sea calm on the passage from Aspinwall. On the afternoon of the day of sating from Havana, frech westerly breezes sprang up. On the following morning the wind blew very strong, the gale continuing to increase in violence as the day advanced. At night there was no abstement in the fury of the gale, and it commenced raining in torients. On Transday it blew a hurricane, the sea running very high. On Friday the storm raged fearfully.

At eleven o'clock in the morning of this day.

storm raged fearfully.

At eleven o'clock in the morning of this day, it was first known among the passengers that the steamer had sprung a leak and was making water fast. A line of men was immediately formed, and they went to work balling out the water from the engine rooms, the fires having already been extinguished. We gained on the water so much that we were able to get up steam ag in, but we held it but a few minutes, and then it stopped forever. Balling continued, however, and was kept up in all parts of the ship until she finally went down.

During Fildus night the water gained cached.

During Friday night the water gained gradually, but all or board being in good spirits they worked to the best of their ability, feeling that when the morning came they might possibly speak some vessel and thus be saved. The fatal Saturday came at last, but brought nothing but increased fury in the gale. Still we worked on and at about two o'clock in the afternoon the storm lailed a little and the clouds broke away. Hope was renewed and all now worked like giants.

Migracia Improving.

The New York market yesterday, as for several days past, showed a marked improvement. There is a steady export demand for Bircadstuffs, and at fair rates. Our own market is growing more buoyant, and Wheat sold briskly, yesterday, at 92 for spring and as high as \$1,12½ for choice samples of winter. Money, however, continues very stringent; exchange on N. Y. is not to be seen and all now worked like givents.

President Buchanan's Kanses and Slavery Letter reached Maine just while the election was pending. The "Democratic" papers did not dare to publish it for tear of damaging their propects at the Polls, and so suppressed it entirely I Even this, it seems, failed to save them.

ANOTHER STEAMSHIP LOSE.—The steamship Norfolk, running from Philadelphia to Norfolk, was lost in the same gale with the Central America. She went ashore and broke to pieces—the passengers and crew, of 47 passengers, took to the boats, and were picked up by the steamers J. Whitney and Carifornia. New York, Sept. 21.—3 P. M.

The Empire City, from Norfolk, arrived yesterday, bringing 92 of the survivors from the Central America, being there said by the Elize and Marine. She met the ship going into Norfolk, and transferred such as desired to come in ner. There are no new rames among the loss brought by her. Mr. Doughas Rutherford, of Oakland, Jefferson Co., Wis., stood near Captain Herndon, and the Onief Engineer, at the time the latter proposed to leave the steamer. Ashley went up to the Captain and intimated that he was going in that boat; Capt. H. replied that he had no right to do so, and that it was his duty to stick to his post. The Engineer said—if you will let me go I will bring back the two boats, and all the boats that can be reached from the Bay. Capt H. expressed his fears to trust the Engineer, but the latter again pleaded so hard, and promised to exert nimedi in securing assistance, that Capt. H. finally consented; when Asoley, running, scized a rope, and let himself down into the boat, and was followed by a passenger. cilities, by putting up new machinery in their large manufactory, which is situated in the rear of their store, occupying Nos 215, 217 and 221 East Water street. This enables them to make quite a deduction from the former prices of the safes, and, as will be seen by their advertisement, they now offer them for sale at prices as low as any Eastern manufactured safes, although theirs are by far more elegantly finished than any others in the country. These safes have stood nunerous tests against both fire and burglars, and n every case that has come to our knowledge, pave proved entirely satisfactory. The merchant who has his tressures deposited in one of them may feel content as to their safety both from the SOMETHING TO WEAR .- Of late, public atten-

No sooner had the latter reached the boat than Ashley drow a dirk and swore that he would stab the man unless he would jump overboard. Capt. H. walked forward on the steamer and called after the Engineer—"now I will depend upon your returning with the boats"—and the Engineer in reply, said—"Captain, you may depend your life on my returning"—but he failed to do so.

The following gentlemen were roceived on board the Central America, at Hayana:

Ancho Richan, bearer of despaches to Paris and Belgium, Consul of Lima, Joseph E. Seguin, Peruvian Minister to the U.S., and his Secretary, Nicholas Tirado; Adolphus Olaque, Richard Olaque, and Barique Quolo, all from Lima, are supposed to be lost. Parisai Esquora, of Vulparise, and Mr. Thorn, of Cellac, formerly of Philadelpeis, are supposed to be lost. Mr. Raine, of San Francisco, was supposed to be on board the Marine. Mr. Raine was among the last to leave the Central America. Capt. Herndon took his w teh from his person and handed it took Rolne, suying, "Give that to my wife, and tell her I am lost, and keep that in remombrance of me." John Black, boatswain, was in the life boat when the ship went down, and saw brance of me." John Block, boatswain, was in the life boat when the ship went down, and saw a fore-und-aft schoomer sail around her stern and across her bows, a few minutes before dark, but could not see her name. He thinks she picked up many of those who were floundering in the water.

Passengers saved by the Marine think that others might have been researed as there were spectfully informed that Mr. WM. F. JOHNSON,

others might have been rescued, as they saw several lights in the distance on the fatal night. They entertain strong hopes of the safety of Capt. Hernden, who was on the wheet-house when the ship went down. He was last seen clinging to a plank, and struggling manfully for life.

A meeting of the merchants was held to-day and a committee appointed to devise means for the relief of the sufferors by the loss of the Central America—secondly, for the relief of the families of the officers and crew—thirdly, in reward of those instrumental in the rescue of the same. \$3,700 has been thus far subscribed, including \$2,000 by the Steamship Company. NEW YORK, Sept. 21-9 P. M.

Ohiof Engineer Ashby's statements as to his course are confirmed by Mr. Tecodore Paine, a merchant of San Francisco. The latter says that the Chief Engineer drew his knife to provent oth-ets from jumping into the boat of which he had charge, and swamping it, and adds that Ashby endeavored to got a crew to return to the Central America, but without avail. The boats wer then hashed astern of the brig, and during the night one broke losse and the other was dashed to pieces. Mr. Ashby intends demanding the fullest investigation representing the facts, of his departing from the steamer.

KING, JERMAIN & CO.

TURSDAY MORNING, SEPT. 22. The New Party Shibboteth.

Stacery existed in Kansas at that period and still exists there under the Constitution.—President Buchanan to Professor Silliman. This is the new test of "Democratic" orthodoxy. Free Trade, Opposition to a U. S. Bank, Hostility to Internal Improvements, the Ostend Circular, even the Kansas Nebruska bill-all these have ceased to be standards of party faith. Mr. Suchanan has just established and promulgated a new and simpler one. It stands at the head of this artisle, and is henceforth to be received and recognized as the Shibboleth of the National Democratic Party. Those only are to be regarded and trusted as true believers, as bona fide Democrata, who believe, with Mr. Buchanan, that the Constitution of the United States estabtishes, legalizes and protects SLAVERY in every inch of Territory was belonging to, or which may hereafter be acquired by this FREE Republic!-The repeal of the Missouri Compromise, the passage of the Kansas-Nebruska bill, the Dred Scott cision-all these aggressions of the Slave Power, bold and unjustifiable as they were, sink

FREEDOM Sectional. And now the National Democratic party are sin, who call themselves Democrats, are required, name of James B. Cross, is a tacit endorsement | cronce to the subject : of Mr. Buchasan's Pro-Slavery Proclamation :--Every vote cast for the Republican candidates is a FREEMAN'S Protest against this iniquitous; this shanoful decree. How say you, men of Wisconsin? Do you believe, with Mr. BUCHAN-AN and the "National Democracy," that "slavery exists," under the Constitution, upon every foot of United States Territory, or do you hold and will you maintain, with the Republicans of the Union, that Shavery is a local institution and has no rights, no immunities, no existence, save under the local law?

Barstow dynasty, basenddenly waked up to the importance of this subject, and startled its readers, Sunday, with a violent attack upon Governor Baserone for an alleged loss of \$150,000 to the School Fund. This comes about, according to the State, in Waupaca and Shawanaw counties, selling at that much below their value, all because the sale was not sufficiently advertised and the bidders had not funds to pay more. The News adds that the sale was purposely kept close and Forty" will not be questioned. that "the Governor's confidential friends obtained about our-half of these lands." Whereupon the News exclaims against this "great robbery," &c., &c., expecting, no doubt, that its cries and clamor will persuade people that there must be something in the story.

its own readers locked-remember in the first place that it aided and abetted "the Forty" in all their inroads upon the School Lands and School Fund, which cost the State ten times the amount charged against Gov. Bashrone. They committee, in the second place, that the News is attedy unscrupations in its assertions, and, as inthe case of the Temperance meeting, does not hesitate to utter as true what it knows to be false. Very sensibly therefore, they withhold all credence in this last invention of the News till it is sustained by some respectable authority; of which, of course, there is not the remotes

The Madison Argus publishes, and the News makes baste to copy, an extract from the report of the candidates. of the Legislative Investigating Committee, in trast h tween the management of this Department under the present Treasurer, and that of his predecessor, is marked and gratifying." This, says the Argus, "is conclusive against the attacks made in the Republican papers against Mr. Hanica, who has had almost exclusive charge of the Treasury for the past two years, &c.

Here are two cool assumptions on the part of the Argus. First, it assumes that the Republican papers have "attacked" Mr. Habicit for official misconduct, "during the past two years;" and second, that the whole credit of the good management of the Treasury, during that time. is due to Mr. Hagnes, and none of it to Mr. KUERN. Both assumptions are notoriously false. The Republican papers have consured the official conduct of Mr. Hamon, while clerk under Mr. JANSSES and not while deputy under Mr. KURHS; and unquestionably the credit for the reforms introduced in the management of the Treasury is one to Mr. Kukus and not to his Deputy. is to the State Treasurer that the Committee award that credit. Their report therefore, so far from exculpating Mr. Hanicu, only serves to continual that the Republican papers and the German Democrats of this city have said against him. He may suswer as a Deputy under a vigilant and honest chief, but his connection with the Janeses deficit is an insuperable objection to his being made Treasurer. It is animsing to note, by the way, how eagerly the Argus claims all the credit for the present condition and management of the Treasury for Mr. Hant H. while only a few weeks since it wast just as carnest and anxious to disclaim for him all responsibility for the mismansgement of the Treasury under Mr. JANSSEN, Yet Mr. HABIGE was a subordinate under Mr. JANSSEN as under Mr. Korns. and doubtless had as much "charge" of the office while the former was State Treasurer, as

The Milwaukee News, a few weeks since, gave interance to the following sentiment : "The attempt to elevate a black and dabased

race -- a race that at home is barbarian and even Cannibal-which is being made by the Republis can party in Wisconsin, is in striking apposition to common sense and christian data." The Madison Argus, a congenial ally of the

News, in the course of a bitter and aplenetic atrack upon the Republicans for submisting the question of equal suffrage to the people, gets off a sentiment which is a worthy pendant to that autounced by the News. The Argus says: if the God of nature had intended the negro to be as good as the white man, he would have made him white. Soutiments like these may be called prejudice against color. It is not, for we are not prejudiced against a block horse, or a piece of black cloth. If the God of nature had intended the negro to

the State Superintendent.

We copy from the Janesville Standard, the ome organ of Ex-Governor Barsiow, the folowing paragraph in relation to the Republican andidate for Superintendent:

John G. McMynn, of Racine, the Republican candidate for State Superintendent, gets rather cold comfort-froin some of the Republican press. The Wauk-show Republican, whose editor has been a teacher—gerhaps is now—and who knows McMynn and his reputation well, says of him: "It has been gravely asserted against Mr. Mc-Mynn, that he is a great disciplinarish, and that he is could be very attention of the country of the country and the country of the charge, in the school room. We cannot answer the first objection, and because it a will be difficult for his friends to clear him of the charge, his election this fall may be doubtful."

If there is anybody who believes any state ment made by the Shamocratic presses about these days, he may take the above for truth; vicereas, in fact, the sentences vited are a portion of a somewhat lengthy article, which con cludes with a strong endursement of Mr. McMyss. The admission made by the Republican is, it is seen, that he "is a great disciplinarien," not that he is "cruelly severe in the school room;" and the Republican proceeds to express its opinion hat Mr. McMynn's ideas of discipline are such as to add to his qualifications for the office, and mmend him to the votes of the people.

However, a party whose organs forge resolu tions for temperance meetings, will not, of course, top at such small affairs as misrepresentation

DRIESBAC I AND HIS PARS .- The Galena Courior gives the following account of a recent meeting between Herr Driesbach, and his animals,

ing between Herr Drieshach, and his animals, alter the latter had been absent more than a year upon his farm in Grant Go:

"The next place we were desired to remove to was the large eage containing a large float, two leapards and a lionness. We mention them thus sain is the order they at and in the cage, it being divided into apattments. As Herr approace, and this cage the lioness caught slight of bine, and met eyes became with pleasure, while her tail wegged a glad recognition. On his coming up to her and presented his face to the cage, she kissed him, and placed her paw in his hand with all the air of an intense affection.

"Indeed, while he was in her presence, and did not know how to control herself, but would like his hands while he attempted to pat her roll over, reach out her paws to him and press her nowe between the bars as though she would like to have laid a closer presence. While flerr was talking to the liones, the old lion in the other and the cage began to get justons and grambled, for he to had recognized his did friend, and there walked up to him, when the cacture crowded against the bars ro get closer to him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed his face in him lift were possible, and kissed him and like his hand.

end wanted by to him, when the creature crowd-ed against the bars to get closer to him if it were possible, and kissed his face and licked his band with as great demonstrations of delight as the otra-cer. The leopards too, in the same cage knew their old master, and watched him as they kay with their noses close to the hats with evident

pressure, and account highly pheased as he spoke to them. In all our days we do not recoilect any exhibition that gave us so nauch satisfaction as dol this maceting of old hisads, and white we wathed them in their congratulations, we could soot make up our mind which was the most described Described. not make up our mind which was its most de-leghted. Driesbach, to know that he was not for-gotten by these affectionate or entires, or that they were once were in his resence. While we were watching Herr and bis old companions the crowd began to gather in, and our companions and self departed highly gratified at the result."

The SOER CANAL.—The Paris Constitutional and the Journal des Debats are endeavoring to persuade the British Government that under the now circumstances with India the opposition to the Soez canal is exceedingly improvident. It may be necessary to transport thiner 50,000, 60,000, perimpa 100,000 troops; the price for each soldier by the Cape of Goof Hope is 1,360 francs for India, and 3,000 for Ohins. On the horses there is a loss of 20 per cent. When the horses there is a loss of 20 per cent. When the men reach their destination they are not fit for service under three months. The India army lose every year a lifth of its offective; on the whole, the scirifice of money is decadual. For reveral years part the deficit in the animal budget of the company has not fallen short of two millions sterling. By the Suez canal the distance would be atill greater; the mortality in the men and horses equally reduced; then the gain of time, of dispatch, how considerable and essential. THE SUEZ CANAL -The Paris Constitutional

Turk's Island Sait.—The prospect of all the salt producing islands in the West Indies is very avoidable. The amount raked at fusque up to August Isi, was 250,000 bushels. The Turk's Island Standard of that dute reported one million of bushels on hand in the colony, with the probability of a larger quantity being gathered during the present four weeks.
